If the answer to any of the items in Section 3 is yes, explain (attach additional sheets if necessary):

**(Previous Foundation Repairs)** In about 2005, repairs were made for minor shifting on the south side of the home. Rebar was added to reinforce.  
 We have noticed no cracks or shifting anywhere in the home since then, approximately 20 years later.

**(Previous Roof Repairs)** In 2022, a flashing issue was identified on the home office chimney. A slow leak of water dampened a wall in the master walk-in closet.  
 The flashing was repaired and we have had no known leakage since.

**(Soil Movement)** See above.

**(Water Damage Not Due to a Flood Event)** - In about 2010, the air conditioning condensation line that drains into the sink in the upstairs east-facing bathroom caused the sink to overflow. The drain was partially blocked with our child's hair. The carpet near the bathroom entry got wet as did the drywall under the adjacent bedroom window. The carpet and drywall were replaced.

- In about 2013, a sink in the master bathroom was accidentally left on with the drain closed while rinsing a swimsuit. It overflowed and damaged the floors in the master bedroom and adjacent hallway. All wood floors on the first floor (except the office) were replaced by the insurance company in order to maintain a cohesive look throughout.

- See above for 2022 roof flashing issue.

**(Wood Rot)** see water comments above.

\*A single blockable main drain may cause a suction entrapment hazard for an individual.

**Section 4. Are you (Seller) aware of any item, equipment, or system in or on the Property that is in need of repair, which has not been previously disclosed in this notice?**  yes  no If yes, explain (attach additional sheets if necessary):
